

# Installation Instruction

USE  
with  
a112

Open your package and check the parts are all included in the package!

**COMPONENTS** may vary based on your purchase order number

Unfolding the legs of each light, set up lights and adjust the heights to fit your object.

(Lights may vary according to Items Numbers)

1. Set the 2 covers up on single panel on the left and double panel on the right, then turn the black cover facing up as you.

2. Paste the background on the *Velcro* any color what you want.

3. Turn the light covers to stick together with the left and fold press the *Velcro* by your fingers to firm the tent.

4. Place it upside down so the bottom is connected to the backside. (It's covered by your background)

5. Plug in the lights to regular outlet.

6. Turn up the tripod for camera.

(Lights may vary according to Items Numbers)

7. Place in the items to regular outlet.

8. Turn up the tripod for camera.

QUALITY DOES NOT TOUCH THE LIGHTING HEAD. IT CAN BE VERY HOT. DO NOT USE YOUR SKIN TO TOUCH.
